

1. YOU CAN IMAGINE how everyone in the house was totally involved in the childcare ministry by now. Mommy Maria was very busy studying everything she could get her hands on about baby education and child rearing.

2. ON MARCH 19TH WHEN DAVIDITO WAS LESS THAN TWO MONTHS OLD my husband and I arrived to help take care of the Little Prince, since Lucy's little baby would be arriving soon. Having just come from the Family's Childcare Center in Italy and from working in the International Childcare Ministry, I must say my old childcare bottle was broken into pieces over and over again!--And I loved it!

3. THE SECOND EVENING that we spent with Dad and Maria we showed them our family photo book, and Dad, looking just like big Papa Lion, sat on the couch turning the pages and kissing the pictures of the children and

listening to everyone's story about where they were, what they were like, what their ministry

was, and all the little interesting details.

4. WE COMMENTED how we had never seen a baby as beautiful as Davidito. "I guess everyone thinks their baby is the most beautiful", he said.

5. I IMMEDIATELY CHANGED from the American Better Homes and Garden Baby Book to the old Dr. Bundeson's Baby Book which they liked, as well as other good ones they'd discovered more recently.

6. WE COULD HARDLY BELIEVE that Davidito already had teething symptoms, but Maria talked to Rachel on the phone, and found that her children too had begun teething at about two months old, so we prepared for the coming of a new tooth soon.

7. DAD GAVE US A VERY HEAVY ANOINTED TALK about having desperate prayer for the children daily. One of the small babies at another nearby selah location had been having some serious problems with bad spirits actually choking it so that it lost its breath in fits!

8. DAD SAID HE BELIEVED IN COMMITTING THE CHILDREN TO THE LORD DAILY with the laying on of hands and showing the Lord you really mean business! I believe this desperate prayer has been what has kept Davidito from serious accidents and illnesses and even spiritual problems, praise the Lord.

9. THE LORD SO OFTEN CAN DEAL WITH US THROUGH OUR OWN CHILDREN, and that was exactly the problem with this other little baby. His mother had had experiences in

the past with black magic and witchcraft. One night we got a call during dinner that a big swollen bump the size of an egg had suddenly appeared on the baby's head, but no one knew where the bump had come from!

10. DAD GAVE ANOTHER HOT SESSION on how to handle these emergency situations: Since the mother was not obeying counsel and following the steps that the folks had laid out for her to rebuke the evil spirit troubling the baby, then the responsibility was not on us. The colony shepherd should have immediately called the doctor first and then called for family counsel. That way it shows the system that we aren't trying to handle it on our own, and if anything should go wrong, there's no way that we could be held responsible.

11. I SAW RIGHT AWAY THAT THE MAIN THING THAT HURTS MO AND MARIA IS OUR DISOBEDIENCE: Dad was so concerned about what progress had been made on childcare classes, and boy was I embarrassed to have to say that as yet nothing much was actually in print!

12. NOW MO AND MARIA THEMSELVES NEEDED THOSE PRINTED LESSONS, and it eventually took their having a baby and writing the Letters for us, to get the job done! "What do you all do with your time? What do these people do that they're not publishing Revolutionary classes on childcare?" he questioned over and over! He was so upset that he even became sick during the night over our neglect of the children.

13. THE NEXT MORNING HE TALKED

TO THE FAMILY AND BOOM!--THE CHILDREAR REVOLUTION BEGAN! Thank You Jesus! A new challenge was set before us. "Even if we have to write the lessons ourselves and use Davidito for an example we'll do it!", he vowed. And as a result, "The Childcare Revolution", "What's the Difference", "The Education Revolution", "The Health Revolution", "Real Mothers", etc. soon followed.

14. ALSO DADDY COUNSELLED ALL OF US who had anything to do with Davidito's care of the importance of keeping thorough daily records of Davidito's activities and handling, "because someday, you know, you'll be writing his story to share with the world," he said. "And you must be faithful with this responsibility, because many young parents and children's workers will be waiting to hear about what we did with our child."

15. MARIA WAS ALWAYS OUR FAITHFUL DAILY REMINDER. "That's a good point", she'd say. "Did you write that down?" Or, "How is your log coming? Have you completed it yet?", she'd question. This was right at the beginning of the whole New Revolution, and these changes were just fantastic!--And Little David endured it pretty well--all these changes of nannies, people and faces.

16. WE'VE GOT A BIG JOB AHEAD OF US, and that is to train our children in the way that they should go, because they have an even bigger job, and that is to win and lead the world for Jesus in the last generation.

17. THEFORE THEIR EDUCATION
