

Dearest Loved Ones,

GBY! ILYSSM! Just a wee note on this toxoplasmosis which is mentioned in these articles (Alan & Mirjam's baby)..as it said, it is a parasitic infection..which comes primarily from eating undercooked meat which has these things in it, or from cat or bird do which you can come into contact with while digging in a garden for example & not washing well enough (or direct contact too). This is what the Dr. thinks caused the defects of our little David & he said it acts just like the German measles do if you get it during the first months of pregnancy! It is also what MARIA F. may have had & caused her baby's problems according to what someone here said. The symptoms are flu-like & one is not always aware (or seldom is) that one has this disease unless it is very severe & other symptoms develop. When I went to that "Wire Dr" when pg w/Maria he had an extensive blood test done to me to see if I had had that disease to try & find the cause for the defects in the previous baby & sure enuf, I'd had it & had never known it! So maybe we could put a lil' note in somewhere for Mom's to be sure to follow the Health Rev rules that you've mentioned, Dad, about being sure your meat is well cooked before you eat it, as I must confess to previously preferring my meat not so well cooked (beef that is) but sure don't take any chances now..thank you for being so loving & such a concerned Father in every area of our lives! There's no other like you & ILY more than words can say!

Saw Dr. yesterday - no baby yet! Was 2cm dilated & he feels sure it will come within 2 or 3 days! Ha! The Lord knows..2 or 3 days will put me into the 2 week late stage which is usual! The verse you got for me when Magdalene, our first, was late still keeps me "your times are in His Hand"! XO! Will write more when we can send you the good news! The Dr. said everything was going very well & again was very pleased! TTL! -6 You & Gary! 12-7!

love, love, love, -TKS! GBY!
Cir PG Keren! -b ths 4 me
into. -So sorry,

Wrote this before!
read Tabitha's testimony but all I know is
but further warning may "Jesus never fails" b/c
I read as here 5 believe things w/ k bog 4 gd.
of defects from this thing -PTL! -So I'm sure some
(3 mentioned in testimony nothing is 2 hard 4 the
& rears & MARIA F's !) yo! Love! GBY! Love, -D.

"LIFE BEFORE LIFE"

subjects felt their "true inner self" to be either male or female. "(Maria: I guess it wouldn't matter, would it? I mean that's spirit.) No, of course not! There's 'No male nor female in Christ Jesus.' (Ga. 3:26) In the spirit world that doesn't matter that much--except Abraham still loves to fuck! Ha!" (795:1C)

WHEN THE VOLUNTEERS WERE ASKED WHY THEY HAD CHOSEN THIS COMING LIFETIME, most said that it was to learn to relate to others & love without being demanding & possessive. "When you asked the purpose, it came clearly to me that it was to make up to some people for the hurt that I had caused them in former lives." Another said, "The purpose of my birth was to go down & take cloud peace & light I knew before I was born, and spread it around. To go into the confusion of this society & to give out love as fully and freely as possible in whatever situation I get into." And others said that their purpose in returning was to learn love, compassion or humility. As the psychologist said, "Their responses indicate that at a subconscious level, the Golden Rule, do unto others as you would have them do unto you, is the basic law of the Universe!"

NEARLY ALL OF THE SUBJECTS REPORTED BEING AWARE OF THEIR MOTHER'S EMOTIONS BEFORE & DURING THEIR BIRTH. Some even felt the emotions of those in the delivery room where they were born & the nurses who took care of them while they were a newborn. Many said that they were aware of the mother's feelings because they weren't locked into the fetus at first, but instead seemed to be hovering around it!

NO MATTER HOW ENTHUSIASTICALLY MOST CHOSE TO ENTER THE WORLD, they usually said that they found the actual experience one of loneliness & alienation from the "land of light" that they lost when they once more entered into the physical world. Some felt sad or even cried tears during the birth experience. The most frequent report was that they felt cut off, diminished, alone compared to the between-life state. They had to begin all over again. One said, "It was as though I took a final trip inside the fetus, down the birth canal, and it was like a door shut & locked. As soon as I was born, I felt like I was going into a new class, I had a ready-to-learn feeling."

IN THE CASE OF PREMATURE BABIES, three of the subjects reported that they were counselled by others during the time that they were developing as a fetus, and were told that they needed to hurry into the body because birth was occurring faster than expected.

OTHER SUBJECTS WHO HAD CAESAREAN SECTIONS expressed a common feeling at birth - loneliness. One said, "I was pulled from my mother's womb. I was aware of blood around, and intense feelings of loneliness, cold & bright lights. But my greatest feeling right after birth was that I wanted to be held & cuddled by my mother. It wasn't possible for her to do this, because she was anesthetized & simply wasn't there. I felt so very all alone."

ABOUT HALF OF THE SUBJECTS COULDN'T REMEMBER BEYOND THEIR BIRTH, but many of these reported a specific phenomenon as they went into hypnosis & were questioned about their birth. They reported that they began to see colours drifting in front of their closed eyelids. There didn't seem to be any one consistent colour, each subject seemed to see a slightly different one!

SOME OF THOSE WHO COULD RE-EXPERIENCE THEIR BIRTH REPORTED THAT THE EXPERIENCE CHANGED THEIR LIFE. One said, for example, "My major emotion was not that of fear, which I had sort of expected. The experience was more one of deep compassion. I felt compassion not only for the infant who was me, but for my mother & indeed everyone in the delivery room. It was as though I was leaving a beautiful, brightly-lit place where many things were open to me, to come down into a very closed &uzzling environment. It seemed as though I knew all of the troubles that lay ahead, and I felt that it was such a waste that we humans didn't understand."

SUCH IS THE AMAZING STORY OF "LIFE BEFORE LIFE", real experiences of those who came back! (Now you had me! -Send it to us! GBY! AMYAB)

"LIFE BEFORE LIFE"
--by Helen Wambach. Published by Bantam books. Review by Joseph Reader.

"THEY'VE GOT CASES WHERE THEY EVEN CLAIM TO HAVE GOTTEN SUBJECTS TO REKEN-
NER THEIR MOTHER'S MOUTH - & BEYOND! Now this I've always said was someone who had a familiar spirit or someone who was being assisted by a spirit helper, & when they got back to that point, then the spirit was simply telling about its pre-existence. It wasn't actually the spirit of that person but another spirit, savvy?" (795:13)

THE PSYCHOLOGIST DID A STUDY OF 150 VOLUNTEERS UNDER HYPNOSIS & got almost 50% of them to return to the experience of their birth & remember it clearly - in detail - and some even "remembered" further, to previous lives that their spirit helpers had lived! Once the subjects were under hypnosis she took them back a little at a time, remembering first of all the age of 18, then 15, 14, 13 - and then literally "out of the body", as she described it, to remember the birth itself!

EVEN 80% OF THOSE WHO REMEMBERED BEYOND BIRTH SAID THAT THEY HAD CHOSEN TO BE BORN AGAIN & that it was their choice to make, but some chose reluctantly, only after consulting with advisors. Others said that it was like freely choosing to do service in the army; not something you'd automatically do, but something that was necessary. "In other words, what would be more logical than to say to a departed spirit: 'Ok, Now you know what the score is, so now go back & do a better job this time than you did before!' If they can come back right away & re-enter the same body, why couldn't they come back much later in a new body? They can't go back into their old dead body! It's been buried & rotten & gone! So what would be the most logical way to send them back?--If they're going to have a chance to undo some of the damage that they did & try to make things right & live a better life, huh?" (795:1,2) One said, "I didn't want to go through another lifetime again, but I felt like I needed to learn to love." Another said, "My feelings about the coming lifetime were that there was a lot of work ahead & I wanted to stay where I was. I wasn't thrilled about living another lifetime."

MANY PEOPLE REPORTED THAT THEY HAD ADVISORS helping them! One said, "Yes, I chose to be born. There was a group talking it over, but the choice was up to me. My feelings about the prospects of living the coming lifetime was that it was like having to go to work, getting ready for the journey & packing up my energies." Another said, "I was offered the chance to be born & I agreed at a sort of important conference. There seemed to be an old bearded man there who was big boss. I was happy at the prospect of living a lifetime & smiled."

BUT SOME WERE RELUCTANT TO LEAVE the place they were at & return to Earth. One said, "When you asked if I chose to be born, I felt that I didn't, because I just wanted to zip around the universe as a beam of light." Others reported, "I did not want to leave the beautiful garden & my friends there. I was happy on my cloud (Ha!) & didn't want to leave it."

THE PSYCHOLOGIST ALSO ASKED THE SUBJECTS IF THEY HAD CHOSEN THE 20TH CENTURY for any particular reason, & got a variety of answers. "When you asked if I chose the 20th century, the answer flashed, 'No, it was just time to go, because rest time was over'." Many said that they had chosen it because it was a very important time: "I chose the 20th century because this century is the dawning of a new age of awareness, and many, many souls are going to transcend to another plane of oneness." "I chose this time period because it is one of great awakening." "This is the most important time of change, and I want to be here for it." "I sensed troubled times and it was the last of a kind of era. It was rough times, but I felt I had more opportunity to make people happy in this time." Over 70% mentioned that the last half of this century would be characterised by a new development of spiritual awareness.

WHEN ASKED IF THEY HAD CHOSEN THEIR SEX, many said that they hadn't, or that the sex in the coming lifetime was not important! Not one of the 75%

Straight From Heaven!

MIRACLE BIRTHS OF HIS CHILDREN!

HE DOES IT NATURALLY
DESPITE THE DOCTORS!

From Sarah; Central America:

Mommy Sarah with twins Beth & Becky when they were 3 months old; photo by Daddy Nathanael.

I HAD BEEN VERY WEAK
THROUGHOUT MY PREGNANCY, &
at 7 1/2 months the doctors
put me in the hospital
because of complications.
After 2 weeks of rest there,
they thought I was getting
worse & that I should have
a Caesarean section.

BUT FIRST THEY DID A TEST
TO SEE HOW MATURE THE BABIES
LUNGS WERE. The results
showed that they weren't yet
mature enough. Needless to
say, I wanted to have a normal
delivery, & despite the
doctors' doubts the Lord
gave me a lot of verses
about Him being the one who
delivers & strengthens.

AT 5 O'CLOCK THE NEXT
EVENING MY WATER-BAG BROKE,
& we found out I was 3 cm.
dilated. A number of doctors
conferred together
about what to do & decided
to wait till the morning
before doing anything.

I WAS SO HAPPY BECAUSE I
KNEW THE LORD WANTED TO DO
IT ALL. My husband Nathanael
& a brother were in the room
with me, and because we were

so cheerful & relaxed the
nurses left us alone, think-
ing my labour wasn't pro-
gressing much.

ABOUT 3 P.M. THEY CHECKED
ME, & to their surprise I
was 9 cm. dilated. In the
delivery room I didn't even
feel like pushing, but I
pushed & Beth came out with
about the third contraction.
Then, 6 minutes later with
the next contraction Becky
slid out so fast that Nat
didn't even know she was
out.

ALTHOUGH THEY WERE PRE-
MATURE, THEY PROVED THE DO-
CTORS' TEST TO BE WRONG by
being in good health. The
doctors & nurses were really
surprised & pleased with
such an easy delivery & said
they had never seen anyone
enjoy giving birth so much.

PRAY FOR THE LORD! I am so
thankful for this life of
faith that teaches us to
lean on the promises of God
so we can see Him work mirac-
les!

PREMATURE
BUT HEALTHY!

TAI IS DOING REALLY WELL.
TJ! She was born premature
by 10 weeks, & weighed only
3 1/2 lbs.

SHES IN AN INCUBATOR
FOR TWO WEEKS, then in a
regular crib at the hospital
for two more weeks before
coming home. It was such a
miracle of God, the whole
exciting birth, & it really
caused a stir in the hospital--
nurses from all wards
went to see her & are still
in contact with us, as is
her special doctor who really
is sleepy & so anointed
in his work with the little
premature babies. TAI!

THE SPECIAL PSALM THE
LORD GAVE US DURING THE
BIRTH WAS PSALM 91. We pray-
ed for a normal, natural de-
livery with no complications
& no distress to her lungs,
etc., & praise God, she's
had no problems. After the
water-bag broke, she just
took one hour & 10 minutes
to arrive. TAI! It was a
miracle & such a beautiful
experience!

TWINNS WITH
2 FATHERS!

From Charity Rainbow; U.S.A.:

Destiny Sophia at 3 months.

Dearest Dad, Maria & family,
GIVE ALL FOR THE LOVELY
CARD & CONGRATULATIONS &
love gift you sent us for
the birth of our precious
daughter, Destiny Sophia.

WE ARE HAPPY TO SAY THAT
SHE CAME HOME AFTER JUST 33

Angelique(left) & Michael
of Titus & Charity Rainbow.

Dear Maria,
I LOVE YOU SO MUCH, &
YOUR SAMPLE OF OBEDIENCE TO
DAD & your love for us is a
never-ending inspiration!
Thanks so much for Techi's
story. One part of it in
particular is why I am
writing.
