

you help me with this? I love you so much. You should see their eyes when I show them the photos of the children & of us together. They all say that they would like to have a family & have children & to be happy. Everyone wants to be happy, & why not? Don't they have that right? Please Honey, help me to help them, OK?

Lord help us! Jesus, if this is Your will I pray that You show us how to do it & give the Family a genuine desire & love for these brothers in prison, in Jesus' Name. Amen!

Yesterday everyone was so depressed. Sunday is terrible. If they could receive a personal note from some sweet sister it would make them super happy & they would eat up every word. You understand? It would be living Word for them. Maybe even a picture. I think this would change their lives radically. Please help me. Please read this letter to the others & ask them to help me, in Jesus' Name, OK? Thank you so much.

I'll give you a list of the names of the brothers & a little description of each one. This way, the brothers & sisters can choose who they would like to help. I love you all so much. Thank you so much for your help, love & encouragement & your sacrifice in helping Sarah, GBY.

You are the most precious & loving brothers in the world and the most beautiful Family that exists & everyone needs this love. Please help me to help the brothers here. Thank you, thank you, thank you so much.

Love, Angelo"

- "Victory: Yesterday we prayed for a boy from Sri Lanka (he was saved & participates in our reunions). He went to court this morning & just came back glorifying God for the miracle. He will be out in 10 days while normally for a crime like his (70 grams of drugs) they usually give a sentence of 2-4 years. PTL. It was a testimony for everyone & everyone started praising God. He wants to join the Family when he gets out & I'm sure he will be a disciple. GBH. He's really sweet & humble, always smiling & polite with everyone. Pray for him & maybe you could send a message to the Family there."

- "The German boy whose address I gave you wants to join the Family starting now and serve the Lord full-time in prison, GBY. He says that he's always had the desire & when he saw me doing it, he wanted to do it too, TYJ. My 2 cell-mates are fantastic

& read the Bible with me three times a day & we pray together."

- (TESTIMONY OF A PRAYER FOR THE HOLY SPIRIT) Saturday I gave a brief lesson on the Holy Spirit that lasted about 1/2 hour of readings from the Bible & then I explained what it all meant. Result: 8 people received the Holy Spirit. First, they prayed themselves in Jesus' Name & then I laid hands on them & prayed for them. It was a very simple ceremony & very moving. One of them was disillusioned because he expected some manifestation of the Spirit, like prophecy & tongues or something but, I saw the manifestation of the Spirit in them. For the first time everyone held hands & prayed in silence one at a time, while before, when they prayed continually & each one in his own language. The result was that no one understood anything. I know that the Lord heard those prayers, but I always felt that it would be really beautiful if everyone could understand the words of the prayer. Many times I tried to explain to everyone but without success.

Then, after the prayer for the Spirit yesterday, the prayer was very different. Today, in our Sunday Fellowship, we sang hymns & songs from Africa as well and everyone was really in the Spirit and praised the Lord as they had never done before. This evening Edward (my cell-mate) said, "The prayer today was really powerful, & I feel that it gets stronger each time." GBH. Then, after the Communion we had a little party (I made pancakes and chocolate) & everyone was happy & praised the Lord. I handed out the Letters, the Comix, the little books, & posters and calendars.

It is so wonderful to go out into the court yard & see people reading the Bible & others reading the Comix while before they were all busy talking about their problems or listening to those diabolical transistor radios. PTL.

The devil must really be mad. He thought he had won a big battle putting me in prison & here he is finding himself with a real Church in the prison with a lot of prayer, Letters, Bible & I'm sure there will be real manifestations of the Holy Spirit (please pray).

I feel much more accepted by them now, whereas before they watched me with suspicion & didn't totally believe me. Now they call me brother. You know that the people from Africa are not very well disposed towards whites, especially Christians, as they have had every sort

of evangelism & been cheated by all. PTL, to listen. At 3:00 they open the door to the Lord works in mysterious ways. TYJ.

Reading the FF Letters in the Mag, I realized how much the Lord cares about even one single soul. He, the Lord, lets Dad & Maria pass through all those experiences & spend so much time for one single soul. All this makes me feel that it's worth it all for these 30 souls and 10 who have received the Holy Spirit, PTL. Above all, DV, this could be the start of a new ministry of catacomb churches in the prison."

- A DESCRIPTION OF THE CONDITIONS IN THE PRISON

I just realized that I've never described the life here. I'll describe to you what happens here & you can imagine. The room is 5x3 meters, colored yellow and very dirty. There is a window with bars that lets through quite a bit of wind & a door of solid iron with just a small peep-hole for the guards to look into during the night & during the hours when they close us in. There are no closets except for a small shelf of metal where we keep coffee & food. We keep our clothes & personal belongings in plastic bags under the bed & in the corner there's a set of hooks for our clothes that we put on during the day. In one corner is the toilet which consists of a hole in the ground like they have in many bars here. There's no door for the toilet & on the side of this un-hygienic hole there's a sink to wash ourselves. (There is a shower in the canteen for two times a week, but if you don't get there at 7 in the morning there's no more hot water). There are 120 rooms in this section with a total of 250 people, considering that many of the rooms have 3 beds. At 7 in the morning they open the doors & at 8 they open the doors to the court yard until 11:30, one can stay outside & walk around or go to see the Social Worker. Some have friends in other sections & go there to meet them. You can go to the other rooms to talk to the others or drink a coffee in some other room. At 11:30 is lunch (sometimes it's not bad). Everyone lines up with a plate & one by one they serve each prisoner. The guards watch to see that no one gets too much or double servings. For each person there's a piece of bread. At 12 they ring the bell & close the doors to the rooms for 2 hours until 2:30. This is the time when I write or read with my cell-mates. It's also the time when I pray & take time

to listen. At 3:00 they open the door to the court yard until 6:00. We can walk outside & many people play soccer. At 7:30 there's dinner. Everyone trades books and newspapers & magazines. At 8:30 the bell rings, the doors are closed. It's done - another day, the 49th day.

I try to keep a schedule & stick to it as much as possible. I get up about 8:30 or 9:00 after having prayed in bed. After breakfast we read for about an hour with my cell-mates & whoever wants to come. Then about 10:30 or 11:00 I go out for a small walk. This is usually a good time to start talking to someone & witness or share some experiences or encouragement with someone. I'm hardly ever alone (sometimes I have to insist to be alone to pray or think). Then, when they close the doors I eat with my cell-mates but I often give what they give here in the prison to the others because, thanks to you, I have something better, TYJ, which, of course, I share with my cell-mates. Every day I talk to about 15-20 people & witness to about 5 or 6. I distribute the Letters that you bring me, trying to encourage the people to read them & I also give out fruit and crackers & whatever is extra.

There is a lot of antagonism between the Greeks & the foreigners. But, don't worry about me because the Lord protects me miraculously. TYJ. The Spanish don't get along with the Germans, & no one wants the Indians in their room. The Arabs won't stay in the same room with English or French & the blacks don't like anyone. Well, the Lord let me be in the worst section & the friend of the most outcast, the Negros, PTL. Something changed in my room (Angelo's room-mates are black) & many whites come to be friendly with the blacks. You can imagine all the things that were said because I chose to be in the room with 2 blacks. But, things are changing, TYJ. Well, 29 of the dangerous criminals are saved, they have Jesus in their hearts. Some of them have also prayed for the Holy Spirit & are reading the Bible & the Letters. Many come often to my room to pray & read a talk & ask about the End Time.

Everyone's gotten into the habit of smiling when they say hello to me & not talk about their problems around me but try to be positive, otherwise they're not welcome (GB P & M, now I understand them much more, ha!)"

MORE TESTIMONIES FROM PRISON!

From Angelo

My dear sweet Honey,

I love you so so much. God bless and keep you forever with our precious children, in Jesus' Name. Amen! Praise the Lord, I am praying so much for you in these days & I know that the Lord will take care of everything in everyday, TYJ. I am so sorry to be so weak in front of you, Honey. You're so strong & the way in which you witnessed in court was fantastic, and so were Abel and P. and K., & I'm sure that we have delivered our souls in front of those judges and who knows what God will do with them & with all the people who will read the papers & the journalists themselves. I really believe this situation will change the course of the history of this nation. We gave the message. We said the truth. We exposed our life and that of our children. Now God must take care of the results. The results are not our job. I'm waiting for a miracle and I know that He will do it. He has never failed. In Jesus' Name. Honey, believe me, I have faith in Jesus & I know that He is in control & that nothing will happen without His permission & if He permits that something happens, well PTL. It will be for His glory in Jesus' Name.

I don't know if it's just my weakness but I have such a pain in my heart, almost like a constantly open wound & my heart cries constantly. Sometimes it's such a deep suffering & I know that it can't be human. Honey, I know that the Lord is accomplishing His purpose with me & that this suffering is for a specific reason, I love you so so much and need you. (DM 9th February #40)

The DM of the 3rd of April says, "God can only use broken men & women...no others will do" and it finishes saying, "Until you have been broken, humbled, & have come to the end of yourself & have nothing left but God, God can never use you as much as He would like. Did God make a mistake? or is all this necessary to make of you what you ought to be?" PTL. This is certainly what the Lord is doing with us (& with everyone). You know, at the beginning of all

this I was afraid to talk about the promises the Lord was making to me but now I know that I must tell you because you are fighting at my side & I need to say the same things of John. Honey, the Lord told me, at the beginning of all of this, the He would make me a new vessel, more fit for His use. That He would make of me a new man & would give me a part to recite for Him with the power of His Spirit. (DM 224)

One day I was walking outside, at the beginning of this, & the Lord attracted my look to an electric transformer at the top of a pole, a gigantic box that serves as the electric generator for the prison & said to me, "I want that you be like this generator & that you tell them the words that I tell you." I was a little shocked and I said, "But Lord, I don't understand. I've never read anything in Your Word regarding generators". But boom!...the same day I read DM 75 & one part says, "if you totally yield yourself to the Lord in submission & humility, then He will empower you & fill you with the Spirit: - You then become a powerhouse, a generator of the Spirit of God: ... "For with God nothing shall be impossible, & all things are possible to him that believeth!"...So "fear not the things which rise up against thee, for all the forces of the devil shall be as chaff which shall be blown away by the Spirit of God! For I am with thee & none shall stand against the power I have given thee!" PTL. When I received this message about being a generator it was a cold cloudy day & at a certain point the clouds opened & a beautiful ray of sun illuminated the court yard right where I was. PTL. The Lord said, "So will I open the doors of this prison & whoever will oppose it shall be as dust under my feet." Then the Lord said that Abner is with me & is my helper. When I asked about Dad, the Lord said that Dad had prayed for me & that the Lord would have His will with me & that He would comfort me & encourage me, revealing to me what He would do with me. All this happened in the 1st week that I was here. Well, certainly from that moment on many things

have changed a many of the things that I received have come to pass & it seems like the moment of liberation is drawing near. PTL.

The DM #79 is so true & it is just what is happening. Think of how many people know us personally having seen us sing in the restaurants & in clubs. Think of how many thousands of people who have received Letters in the street etc., & now we're in the papers of this nation so that the smallest to the greatest in the most far reaching village towns will hear. Everyone in this nation is confronted with a decision, even the president & the prime minister. PTL: The Lord really makes news, hallelujah!

It seemed like an insignificant thing, just a little case of extradition to Italy. But look what God did. These people should be shaken up because His voice really is trembling. When the first articles came out I prayed & the Lord told me, "This voice came not because of me, but for your sakes." (John 12:30) Boom! Hallelujah, just now as I'm writing this they gave me your message about the newspapers & many people here have just received the papers talking among themselves about me! (We phoned the social worker of the prison to let Angelo know that after the trial several articles were published, some of which gave fairly accurate accounts of our testimonies at the trial, at least some of the truth was published). Well, this is another demonstration of what the Lord wants to do. Oh Jesus, help us to be faithful to do our part. Lord, we know that the enemy is really angry & we also know that he can't do anything as you promised that you would destroy the power of the enemy. Jesus, You know what is best, help us just to do our part & to stay in prayer at every step in Jesus' Name. Help us to be near in the Spirit and in communication & in prayer. Thank You for this powerful answer, Lord. We are waiting only on You, Jesus, as You told us to, Lord, & we believe that we have done our part & now we are waiting on You to do what we can't do, as You promised, Jesus! We are waiting for You to show us what we must do, Lord, how we must react & above all, Jesus, we pray that You help our friends to be convinced in their hearts, help them to not be afraid. Jesus, You said that "whoever shall deny Me before men, him will say!" All the pastors were startled by

I also deny before My Father which is in heaven." (Matthew 10:33). Help them, Jesus, to be more faithful. You said that You would bring new friends through this. Maybe the president & the prime minister of this nation will read the papers, help them, Lord, to understand the situation & to do something. We know that You will hold everyone responsible who reads these articles. You did everything, Jesus! We didn't even think it would be such a big thing, but You make news. You always have. Help us to do our part, I pray that You forgive me for being so weak & for losing courage & I thank You that You remember that we are but dust & have mercy on me. You always give me the victory, TYJ! Lord, You reminded me of Your first public discourse (Luke 4:15-30) when You were persecuted from the beginning of Your ministry, & even before Your birth. PTL. You are the greatest example. Help us just to be faithful & to do our part in Jesus' Name. Protect us as we follow You. TYJ! PTL!

Honey, I am so encouraged & excited by what the Lord is doing. Before this prayer I went into the garden with Johnny (one of the catacomb disciples) & everyone was so different with me, the photos are so beautiful & many people came to compliment me, saying that they had never believed the other articles. Honey, I must tell you what happened this morning - Andre came to call me saying that in the church there was a group of English Protestants who were about to begin an Easter Service and that it would be in English. (There are usually no church services for foreigners). All of our brothers were waiting to see what I would do, so I got up & said, "Let's go see." They received us very well. In the church there were other people (foreigners) from the other sections. The service was rather good & simple, a few prayers & a lot of blah-blah & some songs. Then, a little sermon about the death of Jesus for our sins. At that moment I thought that the pastor would invite the people to pray to receive Jesus, & I was really praying that this would happen, but much to my surprise he didn't make this invitation. I was really moved singing & listening to the sermon but when I saw that he wasn't going to pray & invite the people to receive Jesus, I could not resist, & I was really pushed by the Spirit. I got up on my feet and shouted, "I have something to say!" All the pastors were startled by
