Thank You, Lord, for another wonderful day! For strength & health & life & pleasure & love & sex & Maria & a wonderful Family, Lord, all Thy many blessings, safe Keeping through the night & all the time, & a good night's rest, Lord.

Ummm, that position really inspires me, mmm, I want to start all over. Come on, sweetheart, you can go a 3rd time!

So we're lying here cuddling like we do every morning, we make a little love & then we pray for the day & thank the Lord for it, & then maybe we make a little bit more love. I usually wake a little before her. I lie here thinking & praying about the day & various things, problems & victories, etc., & then I get a little restless. Sometimes I lament to Maria, "I haven't had sex for a long time!" She says, "Why Honey, we just had it yesterday!" I said, "That's what I meant, it's been a long time since yesterday!"
I make sure she gets hers usually first for about one or two or three times and she's completely satisfied! A woman, you know, can go a lot more times than men, all in a row! Not many boys can do that.

Amen, Lord, bless our Family around the World, help them to seek You and trust in Thy Words! —Give them all a good day!

You should have sex at least once or twice a day, boys, to keep you nice & healthy & happy & her too! Well, we have lots of fun together in bed—usually before we get up in the morning, & sometimes when we go to bed for our afternoon siesta. We're often having prayer while we're loving & petting & massaging each other, we're praying. We thank the Lord for the day and pray around the World for you out there that the Lord will take care of you & keep you and provide for you.

It seems like lying together in each other's arms so lovingly while praying, seems to be so conducive to sex. You get in the Spirit by praying, so try it. There's something very spiritual about sex. I often explode in the Spirit the same time I'm exploding in the flesh. I have a spiritual orgasm the same time as my physical orgasm.
Now, boys, I don't mind if you mix a little business with your pleasure, but watch out about this business of mixing pleasure with business. We want you to have lots of pleasure, but don't mix too much with your business, you might not get enough work done. There's a good time for this kind of pleasure, when you wake up in the morning & when you go to bed at night, or during your afternoon siesta.

What a nice beginning of a day! A good night's rest & a sweet early morning cuddle & nice good prayer & a nice good loving—sometimes that's how we start our naps & our nights too!

Sex is something that gets better all the time, just like our love & our years together. I don't think I'm even going to get over it in Heaven! Ahhh, if the angels can have sex, then we're going to have sex too! I'm going to really make the rounds then! I'll be able to make a lot of you girls happy that I didn't get to personally make happy here, in the Spirit. Praise the Lord! (Gen. 6:2 & 4.)
Start off the day right with good fellowship instead of a fight—that’s the way to start off the day! The best way to start is with a little love & prayer & sex & a good healthy 15 minutes of vigorous exercise that leaves you panting. The doctors say if you at least have 15 minutes of vigorous exercise that leaves you panting & gasping for air, that is good exercise & boy oh boy, a half-an-hour of good sex that leaves us panting and gasping for air, that ought to do the trick! —Amen?

And then we lie exhausted in each other’s arms for awhile & often make a tape, or I tell her a dream or we discuss something that needs to be discussed about the Lord’s Work & His business & you, & then it gets us inspired to jump out of bed & get washed up & dive into our work again.

So that’s the way to start the day with a little prayer, love & sex & hard work! God bless you.
